

Metabolomics Core Facility

Price list for 2023, valid from 2023.12.08.

All prices are in HUF and VAT is excluded. In case of commercial requests discounts can be established based on the type of analysis and the number of samples.

The users of the Metabolomics Core Facility agree that in their publications or power point presentations using the data acquired in/with the help of Metabolomics Core Facility, in the „Materials and Methods” or „Acknowledgment” section they mention that *“The analyses were carried out at the Metabolomics Core Facility, Department of Biochemistry and Molecular Biology, University of Debrecen”* and send a pdf of the paper, a copy of the figure or the first and last slides of their presentation to the Metabolomics Core Facility as soon as possible but maximum to the end of each year.

Services	Price for BMBI	Price for laboratories from UD Faculty of Medicine	Price for academia	Price for companies
Analyte quantification up to 10 analytes*	18000	18000	24000	48000
Analyte quantification of 10-15 analytes*	25000	25000	31000	62000
Free amino acid analysis (quantification of 20 proteinogenic amino acids)*	26000	26000	32000	64000

* The prices are informative. Before placing an order, please consult the Core Facility staff. In case of analyte quantification special standards may be necessary, while in case of amino acid analysis application of 5- or 7-point dilution series for calibration and sample dilution might be required.
